## FAMILY OWNED

JH3 Company is a family-owned business that caters to all your roofing, waterproofing and concrete resurfacing needs. Through experience and talent, JH3 Company has grown into a thriving, successful, referral-based company. We are dedicated to treating clients with respect and decency while focusing on service, quality and value. It is our objective to help you improve your quality of life through roofing, waterproofing and resurfacing.

## OUR EXPERIENCE

Understanding the complexity of water, JH3 Company is proud to have a General Contractors license (B) and a Roofing license (C-39). We also pride ourselves on keeping up to date with the latest technology in our industry. To us, it isn't just about installing a roof or waterproofing a deck or restoring concrete. Many times there are structural defects that are the cause of a leak or premature failure. Our company's diversity is based on our ability to identify, solve and execute these often overlooked issues.

The Young and Brave Foundation, a 501(c)(3) nonprofit based in Ventura, CA, is important to JH3 Company because their mission is to help young adults and children beat cancer.

Therefore, JH3 Company donates a percentage of all proceeds from any roofing, resurfacing or waterproofing job, no matter the size, directly to The Young and Brave Foundation.

Help us support these children in need. We can accomplish miracles when we come to together as a community.
